PROFESSIONAL PROFILE

Software Engineering student with a strong focus on backend and frontend development, committed to building secure, scalable, and user-centered digital solutions.

My approach combines engineering discipline with creativity: I develop applications using Node.js, Spring Boot, Python, and Java, integrating modern user interfaces with React, Angular, Next.js, and Tailwind CSS.

I am motivated by the belief that technology should not only solve problems, but also transform lives.

My interests include cybersecurity, artificial intelligence, and mixed reality, fields in which I aim to continue growing professionally.

TECHNICAL SKILLS

Languages: Java · Python · C# · JavaScript · TypeScript

Frameworks & Technologies: Spring Boot · Node.js · Django · Angular · React · Next.js · Tailwind CSS · Unity

Databases: MySQL · PostgreSQL

Tools: Git · GitHub · VS Code · Docker · Postman · Figma

Professional Interests: Cybersecurity · Artificial Intelligence · Mixed Reality

FEATURED PROJECTS

PlantSim – *Virtual Plant Growth Simulator*

CaféMonitor – *Real-Time Coffee Monitoring System*

UX/UI Interfaces – *Design and development of interfaces focused on usability and user experience*

Games Developed in Unity – *Development of serious and entertainment games with a focus on Mixed Reality (MR) and Virtual Reality (VR)*

EDUCATION

Software Engineering

Universidad Cooperativa de Colombia – Pasto Campus

 Currently in 5th semester

LANGUAGES

- Spanish — Native
- English — Intermediate (B1)
